Work Experience

Sokware Engineer, Biz4Group LLC

May 2023 - August 2025

- Designed and built scalable **RESTful APIs** using **Node.js** and **Express.js**, enabling seamless communication between frontend and backend services.
- Developed dynamic, responsive user interfaces with **React.js**, integrating **Redux** for state management across desktop and mobile platforms.
- Decreased runtime errors by **85%** after introducing **TypeScript** in the frontend codebase, ensuring stricter type checks and smoother production deployments.
- Reduced backend query response times by **60%** by optimizing **SQL** queries, implementing indexing strategies, and refactoring joins across high-traffic relational database tables.
- Engineered **AI-powered custom chatbots** using **RAG architecture** with **Fast API**, enhancing real-time contextual response accuracy.
- Deployed production-grade applications using **AWS S3, EC2, and CloudFront**.

Projects

MyAI - Intelligent Agent Platform

- Developed and contributed to a multi-tier **AI agent platform** providing intelligent conversational capabilities with **document-based Q&A** and real-time chat.
- Backend built with **fastapi** and **SQLAlchemy**, **WebSocket** support (Socket.IO), and **AWS** for secure document handling.
- Frontend built with **React** and **TypeScript**, providing a responsive real-time chat interface, document upload tracking.
- Used **Lang Chain** for question-answering over documents and implemented **alembic-based DB migrations** for production-grade deployment.

DevTinder - Full-Stack Developer Social Platform,

- Developed a full-stack web application that enables developers to connect, network, and collaborate based on shared interests and technical skills, featuring a swipe-based matching mechanism for profile discovery
- Implemented secure authentication using **JWT**, **bcrypt**, and cookie-based sessions, along with profile management (skills, bio, profile photo) and real-time connection requests with live status updates
- Built a responsive frontend using **React**, **Tailwind CSS**, and **DaisyUI**, and managed client-side state efficiently with **Redux Toolkit**
- Designed and integrated a **RESTful API** using **Node.js**, **Express**, and **MongoDB** (Mongoose) with robust input validation using **Joi**.

Technical Skills

- **Language:** Javascript, Typescript, Python, SQL, HTML, CSS, C++
- **Frameworks:** React.js, Next.js, Redux, Node.js, Express.js, Fast API, Lang Chain
- **Tools & Technologies:** Git, RESTful APIs, WebSocket (Socket.IO), AWS, Jest, PyTest
- **Platforms & Services:** MongoDB, PostgreSQL, Milvus, Firebase, AWS, GitHub, Postman, Sentry

Achievements

- **Leetcode S Gfg**(Solved 200+ DSA)
- **NPTEL - Programming in C++**(Scored 79%)

Education

- **Bachelor of Technology - Arya College Of Engineering and IT - 8.7 GPA (2018-2023)**
